## *List of Foreign Countries and Their Disease Status*

---

### Contents

Introduction [page C-1-1](#)

Matrix [page C-1-1](#)

Foreign Countries and Disease Status [page C-1-4](#)

---

### Introduction

This appendix lists the distribution of the animal diseases as identified in 9CFR 94. Use the *List of Foreign Countries and Their Disease Status*<sup>1</sup> to identify the animal diseases which occur and **do not** occur in each foreign country.

---

### Matrix

**Figure C-1-1** is divided into columns. The left column alphabetically lists foreign countries. The right columns identify which animal diseases occur in each country; which animal diseases **do not** occur; and which countries have special requirements.

Listed below are the abbreviations used to describe the disease status categories:

**ASF.** African swine fever.

**APHIS-defined EU CSF Region.** The European Union Member States of Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Italy, Latvia, Lithuania, Luxembourg, the Netherlands, Poland, Portugal, Republic of Ireland, Spain, Sweden, and the United Kingdom (England, Scotland, Wales, the Isle of Man, and Northern Ireland). The APHIS-defined EU CSF region is a single region of low risk for CSF.

**BSE.** Bovine spongiform encephalopathy.

**CSF.** Classical swine fever (formerly HC, hog cholera).

**END.** Exotic Newcastle disease.

---

<sup>1</sup> Or other areas of special epidemiological interest to APHIS.

**FMD.** Foot-and-mouth disease.

**HPAI (H5N1).** Highly pathogenic avian influenza subtype H5N1. The following countries are affected with HPAI (H5N1): Afghanistan, Albania, Azerbaijan, Bangladesh, Benin, Burkina Faso, Cambodia, Cameroon, China, Côte d'Ivoire (Ivory Coast), Czech Republic<sup>2</sup>, Denmark<sup>2</sup>, Djibouti, Egypt, England<sup>2</sup>, France<sup>2</sup>, Germany<sup>2</sup>, Ghana, Hungary<sup>2</sup>, India, Indonesia, Iran, Israel, Japan, Jordan, Kazakhstan, Kuwait, Laos, Malaysia, Myanmar, Niger, Nigeria, Pakistan, Palestinian Autonomous Territories, Poland<sup>2</sup>, Romania, Russia, Saudi Arabia, South Korea, Sudan, Sweden<sup>2</sup>, Thailand, Togo, Turkey, Ukraine, and Vietnam. (Country listing will be updated as country status changes.)

**SVD.** Swine vesicular disease.

In addition to the above, the following four disease status categories are included for regulating the importation of meat:

**CSF/SR.** Classical swine fever free with special requirements. Applies **only** to meat, meat products and edible meat by-products.

**END/SR.** Exotic Newcastle disease free with special requirements. Applies **only** to meat, meat products and edible meat by-products.

**FMD/SR.** Foot-and-mouth disease free with special requirements. Applies **only** to meat, meat products and edible meat by-products.

**SVD/SR.** Swine vesicular disease free with special requirements. Applies **only** to meat, meat products and edible meat by-products.

A country with special requirements (SR) is known to be free from CSF, END, FMD, or SVD. However, one or more of the following conditions apply to the country:

- ◆ Supplements its national meat supply by importing meat from affected countries

---

<sup>2</sup> Regionalized country. **Only** VS-defined areas are considered to be affected with HPAI (H5N1). The VS defined areas follow: Czech Republic (Kraj of Kralovehradecky and Pardubicky, District Usti nad Orliem), Denmark (Funen County), England (Suffolk and Norfolk Counties), France (selected communes within the following departments of Ain, Isere, Rhone, Saone et Loire), Germany (Kreis of Bamberg, Kreis of Dobeln, Kreis of Havelland, Kreis of Erlangen-Hochstadt, Kreis of Jerichowerland, Kreis of Kitzingen, Kreis of Mecklenburg-Strelitz, Kreis of Muldentale, Kreis of Neustadt A.D. Aisch, Kreis of Oberhavel, Kreis of Ostprignitz-Ruppin, Kreis of Potsdam-Mittelmark, Kreis of Saalfeld-Rudolstadt, Kreis of Schwandorf, Kreis of Torgue-Oschatz, Kreis of Uckermark), Great Britain (Suffolk and Norfolk Counties), Hungary (Bacs-Kiskun, Csongrad Counties), Poland (voivodships of Warminsko-Mazurskie, Mazowiekie, and Kujawsko-Pomorskie only) and Sweden (Kalmar County). Contact your local PPQ-VRS-AQI Veterinarian or a PPQ-VRS-HQ Staff Veterinarian for current information on VS-defined areas for regionalized countries.

- ◆ Imports live poultry, ruminants or swine from affected countries under conditions less restrictive than would be acceptable for importation into the United States
- ◆ Shares a common land border with an affected country or region

The disease status categories CSF/SR, END/SR, FMD/SR, and SVD/SR applies **only** to meat, meat products and edible meat by-products.

## Foreign Countries and Disease Status

Country	Disease Status		Free of:	
	Affected with:	No SR	With SR

FIGURE C-1-1 List of Foreign Countries and Disease Status (continued)

## Appendix C: List of Foreign Countries and Their Disease Status

### Foreign Countries and Disease Status

---

- 1 Highly pathogenic avian influenza subtype H5N1 is considered to exist.
- 2 One of the European Union- Member States of the "APHIS-defined EU CSF region". The "APHIS-defined EU CSF region" is a single region of low risk for CSF. The APHIS-defined EU CSF region is comprised of the European Union Member States of Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Italy, Latvia, Lithuania, Luxembourg, the Netherlands, Poland, Portugal, Republic of Ireland, Spain, Sweden, and the United Kingdom (England, Scotland, Wales, the Isle of Man, and Northern Ireland)
- 3 Bermuda, a Dependent State of the United Kingdom, is FMD-free.
- 4 Currently Canada is the **only** country designated at minimal risk for BSE. Bovine, ovine, and caprine ruminant meat are treated differently from cervid and camelid ruminant meat. Where there is **not** a minimal risk for BSE designation, then regulate Canada as BSE-affected.
- 5 Highly pathogenic avian influenza subtype H5N1 is considered to exist throughout China, **except** Hong Kong (Special Administrative Region to the People's Republic of China), Macau (Dependency of People's Republic of China), and Taiwan (Province of China) which are **not** affected with highly pathogenic avian influenza (HPAI) subtype H5N1.
- 6 Highly pathogenic avian influenza subtype H5N1 is considered to exist in VS-defined territories **only**. The VS defined areas follow: Czech Republic (Kraj of Kralovehradecky and Pardubicky, District Usti nad Orliem), Denmark (Funen County), England (Suffolk and Norfolk Counties), France (selected communes within the departments of Ain, Isere, Rhone, Saone et Loire), Germany (Kreis of Bamberg, Kreis of Dobeln, Kreis of Havelland, Kreis of Erlangen-Hochstadt, Kreis of Jerichowerland, Kreis of Kitzingen, Kreis of Mecklenburg-Strelitz, Kreis of Muldentale, Kreis of Neustadt A.D. Aisch, Kreis of Oberhavel, Kreis of Ostprignitz-Ruppin, Kreis of Potsdam-Mittelmark, Kreis of Saalfeld-Rudolstadt, Kreis of Schwandorf, Kreis of Torgue-Oschatz, Kreis of Uckermark), Great Britain (Suffolk and Norfolk Counties), Hungary (Bacs-Kiskun, Csongrad Counties), Poland (voivodships of Warminsko-Mazurskie, Mazowiekie, and Kujawsko-Pomorskie only) and Sweden (Kalmar County). Contact your local PPQ-VRS-AQI Veterinarian or a PPQ-VRS-VS Staff Veterinarian for current information on VS-defined areas.
- 7 Only Surrey County (England) is affected with FMD. The rest of England is free of FMD
